Tuscarawas County Probate Birth Records
Lawrence Twp. 1867-1908

The Lawrence Twp., Tuscarawas County, Ohio Birth Records were extracted from Microfilm roll, Probate Court, Birth Records, Dockets 1 & 2, 1867 - 1908 .

The births included in this publication are where the child was either born in Lawrence Township or the parents of the child resided in Lawrence Township. It includes the villages of Zoar and Bolivar. It does not include Zoarville or Zoar Station as those areas are not in Lawrence Township. Zoar Station no longer exist.

All attempt was made for accuracy. However, it is possible that mistakes or omissions were made. Some records may appear to be typo's but were either type errors when the record was first indexed or the original record was wrong. Some are actual typo errors made by me.

It is recommended that the reader view the actual microfilm record or the original written record and to use this publication as a guide and reference only.

The first section is indexed by the child's Last name, first name and then year of birth. The second section is indexed by the mother's maiden name, mother's first name and year of birth.

With the earlier records, the mother's name was often not listed but listed as her married name. If the maiden name is the same as the father's last name, in all likelihood, that is not her maiden name. Marriage records or further research would need to be consulted in those cases.

A "BR" and "p" in the first name field indicates that there is a birth record correction for that person and refers you to the Birth Record Docket No. and the page No. For instance, BR10 p423 means to go to Microfilm Docket #10 and page 423.

If there was a birth recorded twice, I will indicate, in some cases, the date the birth was reported in parenthesis in the first name field. Again, it is recommended that you view the actual microfilm that the information was extracted from.
